

LATICRETE® India reaches another milestone

Inauguration of LATICRETE® Plant, Sotanala, Rajasthan.

The entry of LATICRETE®, the world leader in tile and stone installation solutions into India happened through a JV between LATICRETE® International USA and Hyderabad based MYK Group in 2000. The first plant was set up in Patancheru near Hyderabad in Andhra Pradesh. After five years of operations, LATICRETE® India has 11 regional offices and a 300-dealer distribution network covering

LATICRETE® team at the Plant Inauguration

all metros and mini metros spread across the country. Today, it has reached yet another milestone in its path-breaking endeavor.

(L-R: Mr. Muralidhar Yadama - Managing Director, Mr. Munikrishna Papagari - Vice Chairman, Mr. Henry B. Rothberg - Senior Vice President & Dr. Wilfred A. Martinez - President Operations)

LATICRETE® India held an inauguration ceremony in January 2007 that marked the opening of their new plant at Sotanala in Rajasthan. It is now the second LATICRETE® facility in India.

Built to cater to its increasing demands in North India, the LATICRETE® range of thin-set adhesives and cement-based grouts are going to be manufactured in this plant.

It is needless to say that LATICRETE® shall strive in its commitment towards supplying high-quality products that have been its trademark for so many years now and shall be so, for the many years to come.
