

## LATICRETE: CROSSING NEW HORIZONS

### BHUTAN ARCHITECT MEET JUNE 2006

LATICRETE has always been in the forefront in spreading awareness about tile/stone installation systems across the globe. In collaboration with the Construction Training Institute (CTI) under the Ministry of Labor, Royal Government of Bhutan, LATICRETE India Pvt. Ltd. organised an Architect meet in Bhutan.

The gathering comprised of CTI Trainee Graduates, Architects, Government Officials and eminent personalities of the Bhutanese construction industry.

This two-day conference was held to create awareness about emerging trends in tile/stone installation systems. The participants were given information and hands-on experience about LATICRETE's technical expertise and its product applications to meet the emerging trends in the industry.

The Director of SQCA (Standard Quality Control Assurance Department, Royal Govt of Bhutan) also shared his views and interacted with the trainees.

LATICRETE is proud to have made a successful inroad into the Bhutan industry by organizing this meet.
